Summary

Detail-oriented professional with 15+ years of experience in logistics and operations, recently completed the Google Data Analytics Professional Certificate (2025). Skilled in data cleaning, SQL, spreadsheets, and visualization, with a passion for uncovering insights, optimizing processes, and communicating data-driven solutions.

Technical Skills

• SQL (BigQuery): Joins, aggregation, subqueries
• Spreadsheets: Pivot tables, VLOOKUP, COUNTIF, CONCAT
• Data Visualization: Dashboards, charts, storytelling with data (Google Sheets, Tableau)
• Data Concepts: Data cleaning, ROCCC principles, structured vs. unstructured data

Projects

• Bike Share Analysis (BigQuery): Identified peak usage times and rider trends
• Retail Sales Dashboard (Google Sheets): Built KPI dashboard using pivot tables/charts
• Data Cleaning Exercise: Standardized messy CSV into clean, usable dataset

Experience

Truck Driver Class A — Farmer's Business Network (FBN), CO
Feb 2022 – Sept 2025
• Coordinated agricultural deliveries using digital tracking and logistics systems
• Collected and managed delivery data to improve routing and timing efficiency
• Ensured on-time performance while maintaining detailed operational records

Additional CDL Roles (Victory Packaging, ProDrivers, and others)
2007 – 2022
• 15 years of route driving, shipping, and receiving operations
• Collaborated with logistics teams to improve delivery accuracy
• Maintained consistent safety, compliance, and customer satisfaction
